

Team Name:

Start time: Finish time:

You have been stranded in the wilderness without supplies.

This map marks the locations of old camps in the area, where discarded items can be picked up and used to help you.

There are ten old camps and they each contain a number of different objects. When you are nearby, look for the markers to find the exact spot.

You can only collect one item at each stop.

Your team must choose which to gather first.

What do you need most to survive?

As you go along, you may meet other teams.

If you would like to trade objects, you can negotiate with them and make swaps.
